EB(I).

The S.E., S.C., has submitted a proposal for the conversion of the P.W.D. Work Shop in the Belgaum Sr. into a Mechanical Subsn. charge for the proper and efficient up keep and repairs of several kinds of machinery, etc in his circle. The S.E. has fully explained the necessity of a Subsn.: It is for consideration whether the S.E.'s proposal may be accepted. If so, he will be asked to report the estabt. required for the Subsn and the estabt (Pl stamp.) at present employed in the work shop as this cannot be made out from the diagram of estabt. submitted by the S.E.

E.B.(I). P. W. Deptt.

Submitted with reference to the notes on pages 1-2 ante and G.L. No. 444/48-E(I), dated the 13-3-49.

2. The S.E., S.C., has furnished the necy. information. The temporary estabt. asked for by the S.E. for the proposed Sub-Dn. is as shown below -

Estabt.	Scale of pay
Office.	Rs.
(i) One Dy. Engr. (B.E. Mechl./Elecl.)	220-15-400-E.B.-20-500-EB-25-650.
(ii) One Head clerk.	100-8-140-10-150.
(iii) One store coolie and Hondekari.	46-3-85-EB-4-105.
(iv) Two peons.	30-1/2-35.
Work Shop.	
(v) One Asstt. Mechanical Overseer.	80-5-100-8-140-EB-10-220-EB-10-270.
(vi) One chowkidar.	30-1/2-35.
Kolchi Weir Ramdurg.	
(vii) One Asstt. Mechl. Overseer.	80-5-100-8-140-EB-10-220-EB-10-270.

The work charged and muster-roll estabt. will be sanctioned and employed by the S.E.

3. The Ex. Engr., Belgaum Dn., in para 3 of his endt. ~~within~~ states that there is no difficulty in securing the services of qualified/men and trained experienced workmen required for the proposed Sub-Dn.

4. It is for consideration whether, as proposed by the S.E., the P.W.D. Work-shop in the Belgaum Dn. may be converted into a Mechanical Sub-Dnl. charge on a tempy. basis for the period up to the 28-2-50, in the first instance, and the tempy. estabt. as detailed in para 2 above may be sanctioned for the same period. If so,

S.E's proposal may be approved. I think. KJ 27/5/49

the .....

the papers may be refd. U.O. to the F.D. for its concurrence before the necy. draft orders are put up.

Through E.B.(II), Contls Br. & A.B.(II). SAM. 23/5/49.

5. The scales propsd for the several items in the statement at pp 20-25 ante call for remarks in respect of the following items only.

Sr No.	Items	No.	Scale propsd Rs.
1	Store Coolie or Handcart	1	46-3-85-E-B-4-105
2	Asstt. to Medl. Overseer.	1	80-5-100-8-140-E-B-10-220-E-B.-10-270
3	First Turner	1	46-3-85.
4	Brg Turner	1	46-3-85.
5	Welder	1	52-3-85-E-B-4-105.
6	Asstt. Welder	1	46-3-85.
7	Sheet Metal Worker	1	55-3-85-EB-4-125
8	Asstt. Sheet Metal Worker	1	46-3-85
9	Asstt. Mechanic (Gasolene)	1	60-4-100-E-B-4-120
10	Electrician	1	68-4-100-EB-4-120

Further details are necy. in all the above cases before any remarks can be offered with reg. to the suitability or otherwise of the scales propsd. [There are no corresponding scales in the above cases]

444/48
32*188.

6. The necessity of employing trainees, vide items 13, 16, 22, 24 x 30 & 33 of the statement requires further elucidation. In particular it is necy. to know the rate of pay proposed for them & why it is necy. to employ them.

x pp 20-25.

7. In the case of Blacksmith a scale of Rs. 45-2-75 has been suggested by the FD in file No 6919/36-I This may be adopted.

8. The SE will be asked to justify fully the proposed scale vide para 5-6 above.

This may be done first, before considering the proposal further

27/5/49

The Subdn need not undertake all the work elaborated in the SESC's letter. There is

necessity of a soil mechanics laboratory as the SE KIC will be the proper person to undertake it.

Also the apprentices need not be entertained as I am told that in future apprentices will have to be paid the same wages as regular labour employed in workshops.

for

approval.

13-6-49

13/6/49

P. W. D.

E.B.(III).

Submitted (together with Sr.No.53007) with refce. to G.L.No.444/48-E(II), dated the 14-6-49.

2. The S.E.,S.C., has now submitted his revised proposals for the formation of a P.W.D. Workshop Sub.Dn. at Belgaum. The following comments are offered on the several items proposed by the S.E. :—

Establishment.	Scale of pay. Rs.
Office.	
(i) One Dy.Engr.(B.E. Mechl/ Elecl.)(Sr.No.1)	220-15-400-E.B.-20 500-E.B.-25-650.
(ii) One Head Clerk. (Sub Div.) (Sr.No.2)	100-8-140-10-150.
(iii) One ~~First~~ Clerk. (Sr.No.3)	46-3-85-E.B.-4-105.
(iv) One Store Clerk. (Sr.No.4)	- Do -
(v) One Store Coolie and Hondekeri.(Sr.No.5)	55-3-85-4-105
(vi) Two peons. (Sr.No.6)	30-1/2-35.
(vii) One Khalasi. (Sr.No.7)	- Do -

3. The proposed office estabt. consists of the posts mentioned above. ~~marginally noted posts~~. The scales of pay proposed in respect of these posts are in order and may be accepted except in the case of a Store Coolie and Hondekeri. The necessity for a Store Karkun is explained at Sr.No.1 on p.36 ante. The Store Hondekeri-Cum-Karkun is intended to help a Store Clerk. Such a post does not exist in a normal Sub-Dn. Besides the scale proposed for this post viz., Rs.55-3-85-4-105 is more than admissible to a Store Clerk. This will create an anamolous position. The post may be disallowed. The other posts may be allowed.

I agree 16/10/49

Work Shop at Belgaum.

4. (a) The scales of pay for the Mechanical Overseer (Sr.No.8) and Chawkidar (Sr.No.34), viz., Rs. 80-5-100-8-140-E.B.-10-220-E.B.-10-270 and Rs. 30-1/2-35 respectively, are in order and may be accepted.

yes 16/10

(b)

(b) Sr. No 9

	Scale of Pay. Rs.	
Asstt. to Mechanical Overseer. (Sr.No.9).	80-5-100-8-140-E.B. 10-220-E.B.-10-270	Previously proposed
	70-3-85-4-105-5-145	Modified proposal.

The duties of an assistant to the Mechanical Overseer appear to overlap in some respects with that of the Mechanical Overseer. The scale proposed for the Asstt to the Mechanical Overseer, corresponds to that of Sub-Overseer's scale viz., Rs.70-3-85-4-105-5-140. The S.E. has not explained the necessity of this post. In the circumstances it is for orders whether it may be sanctioned.

The post may be sanctioned as the mechanical cadre will require an Assistant of proper qualifications

(c) Sr. Nos 10, 17, 23, 27, 28, 29, 31 & 32

	Scale of Pay. Rs.
(i) One Head Turner (Sr.No.10)	55-3-85-E.B.-4-105
(ii) One Black Smith. (Sr.No.17)	45-2-75.
(iii) Two Carpenters. (Sr.No.23).	45-1-50-2-70.
(iv) Two Fitters. (Sr.No.27).	55-3-85-4-105.
(v) One Oilman (Sr.No.28).	35-1-50
(vi) One Electrician (Sr.No.29).	60-4-100-E.B.-4-120.
(vii) Mechanic(Steam Road Roller) and spare driver. (Sr.No.31).	- Do -
(viii) Mechanic (Diesel Road Roller) and spare driver. (Sr.No.32).	- Do -

The scales in respect of the above categories which are included in the statement at pp.22-27 C/S papers ante. are sanctioned ones. The staff against these posts is already employed. It is not, therefore, understood why sanction of Govt. is necy. in this respect. The S.E. will be asked to elucidate

Yes 4/10/54

(d) Sr Nos 11&12

	Scale of Pay. Rs.
(i) First Turner (Sr.No.11)	46-3-85
(ii) Boy Turner. (Sr.No.12)	35-1-50.

The .....

The posts of a First Turner and that of a Boy Turner is already in existence on the work-charged and Muster Roll respectively. These persons are meant to help the Turner. In the case of First Turner a fixed pay of Rs. 25 (plus Rs. 35 D.A.) was mentioned while for the Boy Turner the scale of Rs. 46-3-85 was proposed. In the modified proposals now submitted the scales proposed are Rs. 46-3-85 and Rs. 35-1-50 respectively. It appears that the requirements of the case will be met if scale of Rs. 30-1/2-35 is sanctioned for the two posts.

First Turner may be given a scale of 35-1-50 and The boy Turner may be given a scale of 30-1/2-35 Kfb/10/49

(e) Sr Nos 13, 16, 19, 22, 24, 30 & 33.

(i) Trainee (Turning) (Sr.No.13).	Re.1/- per day.
(ii) Trainee(Moulding and Casting). (Sr.No.16).	Daily Wage basis.
(iii) Trainee (Blacksmithy work). (Sr.No.19).	Daily Wage basis.
(iv) Trainee (Sr.No.22).	- Do -
(v) Trainee (Carpentry) (Sr.No.24).	- Do -
(vi) Trainee (Auto) (Sr.No.30)	- Do -
(vii) Trainee (for steam and Diesel Engg.) (Sr.No.33).	- Do -

In view of the para 3 of G.L.No.444/48-E(II), dated the 14-6-49, the posts of Trainees have to be ommitted. No action accordingly is necessary. Kfb/10

(f) Sr. No 14.

Welder (Electric and Gas) with knowledge of non-ferrous moulding and casting) (Sr.No.14) — 52-3-85-E.B.-4-105.

The post of a Welder is already in existence on the work charged establishment. The scale proposed therefore, is Rs. 52-3-85-E.B.- 4-105: The scale may Kfb/10

be .....

be accepted. | KJ 6/10

(g) Asstt. to Welder/Moulder (Sr.No.15). — Rs. 46-3-85.

The post of an Asstt. to Welder/Moulder is to be created. The justification for the same will be found at Sr.No.6 of the statement at p.37 c/s. A scale of Rs.46-3-85 is proposed. Even if the necessity for the post is accepted the scale proposed is rather too high. It may be reduced to Rs.35-1-50. | I agree KJ 6/10/49

(h) Hammer boy (Coolie) (Sr.No.18) — 30-1/2-35.

One post of a Hammer boy is in existence on the workcharged estabt. The scale proposed, therefore, may be accepted. KJ 6/10

(i) Sheet Metal Worker. (Sr.No.20). — Rs. 55-3-85-E.B.-4-105.

One post of a Sheet Metal Worker is already filled in on the workcharged estabt. The scale proposed may, therefor, may be accepted. KJ 6/10

(j) Asstt.Sheet Metal Worker. (Sr.No.21). — Rs. 46-3-85.

One post of an Asstt.Sheet Metal Worker is already filled in on the workcharged estabt. in the scale mentioned above. It appears that the requirements of the case will be met if a scale of Rs. 35-1-50 is sanctioned for the post of Asstt.Sheet Metal Worker. | I agree KJ 6/10

(k) Mechanic (Gasolene) (Sr.No.25). — 60-4-100-E.B.-4-120.

Asstt.Mechanic (Gasolene) (Sr.No.26). — ~~Do~~ 55-3-85-4-105) Modified scale.

The scales mentioned for the above two posts are for orders. It may, however, be stated that the post of Asstt. Mechanic (Gasolene) is a new one. | The scales proposed may be accepted KJ 6/10

Kolchi Weir Ramdurg.

(l) Mechanical Overseer. (Sr.No.36). — 80-5-100-8-140-E.B.-10-220-E.B.-10-270.

The scale of the pay for this post is in order and may be accepted.

(m) Asstt.Mechl.Overseer. (Sr.No.37). — 80-5-100-8-140-E.B-10-220-E.B.-10-270.

The .....

The duties of an Asstt. to the Mechnical Overseer appear to overlap in some respects with that of the Mechanical Overseer. The Scale proposed to the Asstt. to the Mechl.Overseer corresponds to that of a Sub-Overseer's scale viz., Rs.70-3-85-4-105-5-140. The S.E. has not explained the necessity of the post. In the circumstances it is for orders whether it may be sanctioned.

I think the post may be sanctioned as the mechanical overseer will require a proper suitable assistant
Yg/10.

(n) Three Mechanics. (Sr.No.38) 60-4-100-E.B.-4-120.

Six Fitters. (Sr.No.39) 55-3-85-4-105.

The scales in respect of the above categories which are included in the statement at ~~papers~~ 25 ~~page~~. are sanctioned scales. One post of each category is already filled by the S.E. He now proposes to appoint two additional Mechanics and five additional fitters. As he has not given sufficient reasons for the same, it is for consideration whether the posts may be sanctioned.

The posts may be sanctioned, but the S.E may be asked to fix them accordg to the volume of work
Yg/10

Mr Patil
6/10

(4) It is for consideration whether the proposals as now modified may be accepted. If so, the papers may be refd. U.O. to the F.D. for its concurrence.

5. The entire cost involved is debitable to the head "50- C.W. Provincial - Estabt. (Ordy.)". The average annual cost of the proposed estabt. exceeds Rs. 5,000/- per annum and is likely to be of a recurring nature. Therefore, if the estabt is sanctioned during the current year with immediate effect, the L.A.'s approval will have to be anticipated with the concurrance of the F.D. The L.A.'s

approval will however be obtained by means of a supplementary demand in due course.

5-10-49.

Vide Mr. Mangis on H 7-11

· HJ 6/10/49

I

I am not quite clear about the staff for Kolabi weir. The weir is not fully constructed & it is not complete in all respects. The work is proposed to be given on contract. Is it implied that the mechanical staff necessary for operating the plant is to be supplied by the Dept. Even assuming that it is so, why should the staff be permanently employed. The work will be completed this season & there will be no longer any necessity for the same afterwards. Why should the staff in WR be on the WR establishment - we must avoid unnecessary inflation of the staff list

p. 2 c/s

2. From the comparison of the statement submitted previously by the S.E., S.C. with his letter No. BM.16, dated the 6.4.49 and the one furnished pp 46 & 47 c/s now, some discrepancies are found e.g. (i) formerly one permanent Mechanical overseer was shown on the existing staff, while in the revised statement three temp. Mech. overseers are shown; (ii) the post of First Turner was shown as already existing as work charged one while now it is shown as one to be sanctioned on temp. estabt. (iii) the Asstt. Welder's post was not shown amongst the existing ones previously while in the new statement it is shown as the work-charged estabt. and so on. These discrepancies require to be rectified before considering the S.E's proposal. The S.E may be requested to furnish the necessary explanation.

x p 27

3. Similarly it is not understood why posts required to be maintained on work charged or muster roll are shown in the revised statement when creation of such posts do not require Govt. sanction.

4. In the circumstances papers may be returned U.O. to the S.E., S.C. with a request to reconcile the difference in the two statements and to submit a fresh details of the staff required for the proposed sub-Dn for which Govt. sanction is asked for. He may also be requested to eliminate such of the work-charged and muster roll estabt. for which Govt. sanction is not needed.

Letter.

From

The Superintending Engineer,
Southern Circle Belgaum.

To,

The Secretary to Government,
Public Works Department, Bombay. No.1.

No. B.M.16. Public Works Department,
Belgaum 21 February 1950.

Subject:- Creation of a New Sub.Division to the P.W.D. Work-shpp Belgaum.

Reference:- Government U.O.reference No. 444/48/79622 (P.W.D.)dated the 23rd December 1949.

In returning herewith the above Government .O.reference together with the statement accompanying thereto,I have to state as under:-

Para 2 of Govt:U.O.reference:-

(i)One permanent Mechanical Overseer (shown provisionally) who was formerly working in the Workshop at Belgaum at the time when proposals were ~~prixarily~~ previously submitted to Government has since been posted as a Deputy Engineer: Incharge, Mechanical Sub-Division under the Karnatak Irrigation Circle, Dharwar. Out of the three overseers shown in the subsequently revised statement, two were posted for the workshop from the sanctioned strength of overseers for the Belgaum Division to look after the heavy work of the workshop, which has progressively grown since February, 1949 from the date of first proposal for the creation of the Sub-Division and the third overseer was temporarily posted to this workshop for training later on to be transferred where a Mechanical overseer was necessary. But now in the fresh statement, out of the three existing overseers, one is proposed to be posted as Deputy Engineer on the formation of a Sub-Division and one overseer under training will be posted for the workshop in his plce. Thus provision for 2 overseer only has been made now.

(ii) No technician is proposed to be taken on the temporar establichment(other than those already ~~on the temporary~~ on the temporary establishment) in the proposals submitted now.

(iii) As the welding work had increased at the time when second proposal was submitt d to Government,an assistant welder was recruited and as such the post was in-corporated to show the position of the establishment as it stood at the time of submission.

2. The work-charged and Muster Roll Establishment for which Government sanction is not required are excluded and the extra cost involved in creating the Sub-Division is now furnished in the fresh statement submitted herewith.

3. From the provision of the staff now incorporated in the accompanying fresh statement it may please be seen that the barest minimum establishment that is essentially required for running the Mechanical Sub-Division efficiently has been provided.

4. It is requested that Government may kindly be moved to accord sanction for opening of the new Sub-Division with effect from 1st April 1950 or even earlier, if possible, for the detailed re sons reported in this office letter No.BM 16

dated the 24th February 1949.

P.W.D

Submitted with ref. to this Deptt. U.O.Y. dated the 23rd Dec. 1949 at p. 13. N/c.

2. The S.E., S.C., has submitted a fresh statement pp. 58-59 c/s of the staff required. He states that this is the barest minimum estabt; that is essentially required for running the Mechanical sub-Dn. efficiently. The S.E. has given in details of the estabt. at present employed and the addl. estabt. now required. The estabt. proposed for this sub-Dn. is as follows: —

Estbt. at present employed	Estabt. required (with grade)
Office estabt.	1, Sub-Dnl. Officer (Rs 220-15-400-EB-20-500-EB-650.
	1, Head clerk (Sub-Divl) (Rs. 100-8-140-EB-10-150)
	1, First clerk (Rs. 46-3-85-EB-4-105 starting salary Rs 55/-
	1, Store clerk (grade as above plus Rs 4/- C.A. p.m.
	1 Store Mukadam (Rs 35-1-50. plus C.A. Rs 4/- pm)
	2 Peons (Rs 30-½-35)
1, Khalasi (Rs. 30-½-35)	
Work shop estabt.	
	2, Mechanical overseers (Rs 80-5-400-8-140-EB-10-220-EB-10-270)
	1 Asstt. to Mechanical overseer (Rs. 70-3-85-4-105)
	1, Black-smith, (Rs. 45-2-75).

444/48/14671 20

1, Mechanic Gasoline
(Rs. 60-4-100-EB-4-120)

1, Oilman
(Rs. 35-1-50)

1, Mechanic steam
Road Roller
(Rs 60-4-100-EB-4-120)

1, Chawkidar
(Rs 30-1/2-35)

Except for the scale of Asst & Mechanic ~~Driver~~ other scales are in order. The scale of Rs 70-3-85-4-105 for Asst Mechanic Driver may be approved.

3. As regards skilled and unskelled labourers it is stated P.59 C/S that, they will be employed as and when required depending upon the work and the expenditure debited directly to the works concerned.

4. The E.E. finally requests that sanction P.15. N/C. for opening of the new sub-on. with effect from 1st April 1950 or even earlier, if possible, may be accorded.

5 It is for consideration whether the P.W.D. workshop in the Belgaum on. may be converted into a Mechanical subon. charge upto the 28-2-1951 in the first instance and the temply. estbt. as details in para 2 above may be sanctioned for the same period. If so the papers may be refd. to the P.D. for its concurrence.

Please see D.S.P.W.D's note dated 15-3-1950 in which it has been proposed to sanction the following additional staff for the Divisional Workshop at Belgaum:

Posts	Pay scale
1. Asst. Mechanical Overseer	Rs.70-3-85-4-105-5-145
1 Store Clerk	Rs.46-3-85EB-4-105
1 Peon or Khalasi	Rs. 30-½-35

2. Though there appears some case for the sanction of some addl. staff in the present case - vide statistics furnished in the statement on page 1 (c) - , it does not seem desirable to sanction any fresh posts at this stage since the whole staff is to come under the review of the Retrenchment Officer appointed by Govt. As the appointment of addl. staff does not seem to be such as cannot wait for some time, F.D. may suggest that pending the review by the Retrenchment Officer the question may be postponed for a period of 6 months.

EARLY.

No.B. M.16.
Executive Engineer's Office,
Belgaum, 13th December 1948.

To

The Superintending Engineer,
Southern Circle, Belgaum.

Subject:- Mechanical Sub-Division for P.W.D.Workshop Belgaum - Creation of .

The statement showing roughly the growth of P.W.D Workshop Belgaum from year to year in the last three years, (please vide enclosure to this office No.G-30(dated 27-10-1948), showed that at present the Belgaum Division alone has machinery worth Rs.4,00,000/- and hand tools and Workshop equipment of Rs.40,170/-. Wi the addition of Kolchi Weir machinery, I have to poin out that the machinery worth of the Division will be roughly Rs.6,00,000/-, and hand tools and Workshop equipment etc. above Rs.50,000/-.

2. It is roughly estimated by the Mechanical Overse Mr. Sirsi, who has toured all the Divisions in the Circle repairing machines as occasions arose, that machinery worth of the Circle will be more than Rs.15,00,000/- and hand tools and workshop equipments etc. nearly a lakh.

3. In this office No.G-40, dated 13-10-1948 it has been pointed out that the work in P.W.D.Workshop Belg has grown very much un-wieldy for one Mechanical overseer in charge now, and the immediate appointment of another additional Mechanical Overseer has already neen pressed, and is under the active consideration c the Circle Office at present. This Workshop has beer attending to the repairs of the machines in Southern Circle, and also of Bijapur Division in Eastern Circle, and may have also to attend to the repairs of the machines of the Miraj Division, in due course of time. Even this Workshop is found to be inadequate t cope up with the Mechanical aid required for machiner operation in the four Divisions of the Circle,. For, the need of Mechanical Overseer separately in Kanara and Ratnagiri Divisions is being keenly felt by the respective Executive Engineers, and there i already a Mechanical Overseer working in Dharwar Division since three years. In addition to the present duties P.W.D.Workshop Belgaum has now to meet the demand of mechanical side of the Weir Constructi at Ramdurg and Government have also sanctioned a Mechanical Overseer exclusively for this weir work, please vide statement A of G.R., P.W.D., No.9304/3 dated the 29-9-1948.

4. With these appointments there will be six Mechanical Overseers - three in Belgaum Division, and one in each of the three other Divisions in the Circle. To exercise economy in operation, utility maintenance and prompt repairs to the machinery (para 1) to harmonise the labours of Mechanical Overseers (Para 2), to pool road making machinery etc. centrally for rendering ready mechanical aid, to any part of the Circle, and to store machinery s accessories etc., for speedy draw by officers in distant interior places unrepresented by manufactu a Mechanical Sub-Division is the much needed desideratum. There is already a nucleus equipment and staff for the Workshop. With the arrival of t new machinery and recruitment of some more staff, t formation of the Sub-Division will not be a

difficult matter. I have, [illegible] conversion of P.W.D.Workshop Belgaum, into a Mechanical Sub-Division with a structure shown in the attached diagram; and request you to recommend to Government for its early sanction.

In addition to other advantages the following objects can also be gained by an enlarged Workshop Organisation -

(i) There is already a tendency in India to go in for labour saving and universal utility machines and I expect Belgaum may in due course be selected for locating one of the Central Plant Pools for this part of the country, this being the Headquarters of t Circle Office. We will have to strengthen our Mechanical Engineering side and for this the Central Workshop and a plant pool are the immediate necessaries.

(ii) We may have to handle very soon large numbers of the following categories of machinery :-

(a) For earth work and metalling :- Scarpers, tractors, Angle Dozers, Crushers, rollers, trucks et

(b) Irrigation Works :- [illegible] equipment, Mixers, pile driving plant, Engines, pumps etc.

(iii) Belgum Workshop should be a training centre for boys above 16 years of age, in the various trades of Workshop operation, and Diesel, Steam and Gasoline engines' mechanism. Such a scheme will not only provide cheap labour for Workshop, but also practical technicans for the contiguous districts area of paucity in technical skill. The workshop at Belgaum will provide a good facility of repairs and over-haulin for the Central Pool Machinery too.

(iv) The Mechanical Sub-Division should also house a Soil-Mechanics Section, with a modest laboratory to ascertain the mechanical properties and behavour of different kinds of spils and materials, used in this part of the Province. Advantage of having a soil-mechanic laboratroy for the 2nd Class tanks and Post War Works needs no emphasis.

6. As Kolchi Weir construction has to begin very soon, and as there are several machines in repairable condition needing renovation, as the working machinery in the Circle require urgent uniform servicing method, top-up technique, and studied repair practice, I have to request you to please create a Mechanical Sub- Division in Belgaum immediately. Any postponemer would mean loss of timely and quick mechanical aid for the several kinds of machinery now working in the Circle and consequent stopping of urgent and importan works.

7. It may also be pointed out that the central Workshop at Dapuri is absolutely overworked and far away to render necessary mechanical aid to the inc machinery in this part of the province including th merged states, in an efficient, economical and expeditious manner.

Proposals for the accounting system for the Workshop (please vide your letter No.G-30(1), dat 18-11-1948, is being framed to suit the proposed Mechanical Sub-Division, and will be submitted soc for your approval.

Letter.

The Superintending Engineer,
Southern Circle.

To

The Secretary to Government, ✓
Public Works Department,
B O M B A Y.

No.13.9m.16 Public Works Departmer
Belgaum, 24 February

Subject:- Creation of a Mechanical Sub-Division for the P.W.D.Wo -shop at Belgaum.

The Belgaum P.W.D.Division in this Circle ha got a work-shop at Belgaum which has been functio ing since last 4 years. The workshop was in the beginning carrying out petty repairs to tools and plant. Since 1947 due to Post War Works in this Circle, the work-shop has been progressively expanding and is now equipped fully to undertake repair works of all kinds of tools and plant including heavy machineries in the Belgaum as well as in the other Divisions in this Circle. The accompanying statement No.1 shows the steady growth of the P.W.D.Workshop at Belgaum. A state- ment No.2 showing the machinery in Belgaum Division is also attached for perusal.

2. Heavy plant and machinery such as steam road rollers, motor trucks, stone crushers, asphalt boilers etc. worth about Rs.15,00,000/- are owned by this Circle in addition to hand tools and work- shop equipments costing roughly Rs.1,00,000/-.

3. The Belgaum P.W.D. Workshop has been carrying out repairs to the machines of all the Divisions in this Circle and some times also of the machinery pertaining to the Bijapur Division in the Eastern Circle and occasionally repairs to trucks belonging to other Government Departments have also to be undertaken in emergent cases. To add to this, this Circle has also to cope up with the P.W.D.Works in the State areas merged with the Belgaum, Dharwa and Ratnagiri Districts and the workshop at Belgaum has to meet the demand of the mechanical side of the Kolchi Weir Construction Scheme at Ramdurg. This has resulted in all round and considerable increase in work in all the Divisions in this Circle.

4. It has, therefore, become impossible for the mechanical overseer in charge of the workshop to cope up with the increased pressure of work and to maintain accounts of the workshop with the existing meagre staff.

workshop will be able to handle any kind of heavy and intricate mechanical work.

6. The Dapuri Workshop is heavily worked. Beside due to Railway bottle-neck and priorities, it has become difficult to send heavy machinery, parts etc to Dapuri for repairs and get them back expeditious with the result the pregress on works suffer -- considerably.

7. Orders for new machinery for P.W.D.Works in the Divisions in this Circle have already been issued and with the arrival of the machinery and heavy plant etc., the work in the workshop will further increase. One mechanical overseer for eac of the Dharwar, Kanara and Ratnagiri Division is being appointed and one mechanical overseer for Kolchi Weir work has already been appointed in the Belgaum Division and appointment of one more -- mechanical overseer for the work-shop is also beir made to cope with the work.

8. In view of the increased activities of the P.W.D. Workshop at Belgaum, the Executive Engineer, Belgaum Division in his letter No.B.M.16, dated the 13th December 1948 (copy attached) has proposed to convert the present workshop into a Mechanical Sub-Division with Temporary Establishment as shown in the accompanying Diagram of the proposed Sub-Division. I entirely agree with the Executive Engineer's proposals. The formation of the Sub-Division will also facilitate the proper --- maintenance of accounts also.

9. Under the above circumstances I would request that Government may, in your concurrence, kindly b moved to accord sanction to the conversion of the P.W.D.Workshop at Belgaum into a Mechanical Sub-Division with effect from 1st April 1949 for the proper and efficient up-keep and repairs of several kinds of machinery etc. in this Circle as this will enable the Department to push on with the several Post War and other works in progress as well as proposed to be taken for execution hereafter.

(3)Scale of pay of S.No.1 is as per G.R.(F.D)No.6567/33-1 of 6-7-48	

Very urgent.
No.B.M.16

Executive Engineer's Office,
Belgaum: 28th March 1949.

Forwarded with compliments, to the Superintending Engineer, S.C.Belgaum for information with reference to his endorsement No.B.M.16 of 19-3-1949.

2. P.W.D.workshop, Belgaum, like other workshops of its kind - has three general sections, viz: shaping, finishing and fitting (or repairing). As demand for mechanical aid for repairs, mainteance and servicing of machines in the Division and in the circle grew with the increase in machines, the repair section of workshop also grew. So that now shaping and finishing sections are under manned to keep up the progress of repair section, and the mechanical overseer has to constantly seek outside help with its attendant inconveniences to schedule work, delay and expense. With shop work, its accounting and correspondence have to keep pace. To obviate these handicaps in the workshop, additional establishment is essential, and it is observed from the statement, the additional staff proposed is predominantly in the office, and shaping and finishing sections of workshop. With the total staff, the Sub-Division will be a well-knit organisation to render studied repair, maintenance of servicing practice. (This office No.B.M.16 of 13-12-1948)

3. There is no difficulty in securing the services of qualified men, and trained and experienced workmen for the proposed Sub-Division.

4. Government may please be moved to approve of opening the Sub-Division immediately with your concurrence.

(Original)

No.B.M.16.

Public Works Department,
Belgaum, 6th April 1949.

Subject :- Creation of a new Sub-Division for P.W.D.Work-shop at Belgaum.

Reference :- Government Letter No.444/48-E(I), dated the 13th March 1949.

A statement giving the information as called for in the above Government Letter is submitted herewith.

2. In view of what has been reported by the Executive Engineer, Belgaum Division in para 2 and 3 of his endorsement on the enclosed statement, the additional staff as proposed therein is just to the requirements and can be secured without difficulty. It is, therefore, requested that Government may kindly be moved to accord sanction to the conversion of the Public Works Department Work-shop at Belgaum ~~with~~ a Mechanical Sub-Division as early a date as possible.

3. The pile driving plant for Kolchi Weir has been received recently as also the pneumatic rock drilling machine from the Executive Engineer, Presidency and hand boring plant from Dapuri Work-shop.

4. The work-shop equipments like lathe, welding plant cylinder boring bar etc., are already received and set up in the workshop. So, to start work with these equipments the Sub-Division is necessary and opening of the Sub-Division immediately by the end of April 1949 may please be approved so that the machinery may not be kept idle for want of direction and management.

Superintending Engineer, S.C.

The S.E., S.C

Sub: Creation of a new Sub-Dn. for P.W.D. workshop at Bel (p.2)

Ref. your letter No B.M. 16, date the 6-4-49.

2 Before considering the proposal for the creation of a new Sub-D for the P W D workshop at Belgaum it is necy. to justify in greater detail the scales proposed in respect of the following posts :-

(1) Store-cooli
(2) Astt. to Medl Overseer
(3) First Turner
(4) Boy Turner
(5) Welder
(6) Astt. Welder
(7) Sheet Metal Worker
(8) Astt. Sheet Metal Worker
(9) Astt. Mechanic (Gasoline)
(10) Electrician.

It shd. be explained with particulars reference to the duties of the posts as also the scales current for similar po elsewhere

proposal
elsewhere, whether the Scales p
require any modifications.

3 The necessity of employing
trainees is not clear & Govt
considers that it is not necy.
as future apprentices will have to
be paid the same wages as regular
labour employed in workshops.

4. The Sub-Dn need not undertake
all the work elaborated in the
S.E., S.C.-I-C's letter. There is no
necessity of a Soil Mechanics Laboratory
as the S E K-I-C. will be the proper
person to undertake it.

5. You are requested to submit
revised proposals in the light of the
above remarks.

By order of the Govt of TN.

No.BM-16.

Public Works Department,
Belgaum, 10th August, 49.

Subject : Creation of a new Sub-Division for Public Works Department Workshop at Belgaum.

Reference: Government Letter No.444/48-E(II) dated the 14th June, 1949.

A revised statement showing the duties required to be performed by the staff mentioned in para 2 of the above Government Letter with the previous and now modified scales etc. is submitted herewith.

2. The necessity for the creation of a new Sub-Division has already been sufficiently dealt with in detail in this office letter No.BM-16, dated the 24th February, 1949. More-over, as all the machines such as welding plant, drilling machines, cylinder bar, engine reconditioning equipment have been received and set up in the Workshop at Belgaum and also the electrical energy required for running the different machines is also supplied, it is requested that Government may kindly be moved to accord very early sanction for the opening of the new Sub-Division so that works may be started and the valuable machineries may not be kept idle for want of proper men of quality and grade.

3. The instructions contained in paras 3 & 4 of Government letter under reply are noted.

2. The Kolchi Weir is not fully constructed and is not complete in all respects. The work is proposed to be given on contract. Is it implied that the mechanical staff necessary for operating the plant should be supplied by this Deptt.? Assuming that it is so, why should the staff be permanently employed. The work will be completed during this season and there will be no longer any necessity for the same afterwards. In that case the requirements can be met by employing the necessary minimum staff on

work-charged

VERY URGENT.
No. B.M.16.

Public Works Department,
Belgaum: 22 November 1949.

Subject: Creation of a new Sub-Division for Public Works Department Workshop, at Belgaum.

Reference: Govt. Letter No.444/48-E(III), dated the 18th October 1949.

A full and detailed report regarding the require-ments of the staff necessarily required for the creation of a new Sub Division for the Mechanical Workshop at Belgaum is submitted herewith after taking into account the progressive growth of the workshop since February 1949, the date of first proposal for the creation of a Sub-Division.

2. The proposals regarding the mechanical staff required for the Kolchi Weir have been suitably modified and provision for the minimum staff absolutely necessary for running the Sub-Division efficiently has only been made. Arrangements to manage the work of the Kolchi Weir by transferring temporarily a few skilled technici-ans from the Divisional Workshop and engaging the local technicians of Ramdurg on Seasonal basis have been made.

3. I, therefore, request that Government in your concurrence may kindly be moved to accord early sanction for creation of a Mechanical Sub Division to look after the maintenance and repairs of plant and heavy machinery of the whole Circle procured under Government Bulk for efficient and speedy progress of the Post War Development Works.

No.B.M.16. Public Works Department,
Belgaum: 22-3-1950.

Subject : Creation of a new Sub-Division for the P.W.D. Workshop, Belgaum.

Reference; This office letter No.B.M.16, dated the 21st Feb.1950.

The favour of early orders on the above mentioned subject is requested.

2. There will be no difficulty in posting a temporary Deputy Engineer (Mechanical) to hold charge of the New Sub-Division for Public Works Department Workshop at Belgaum as one Mr.P.T.Desai, B.Sc.,B.E. who is at present working as a Mechanical Overseer in charge of the General Administration of Divisional Workshop, Belgaum, is considered to be suitable for this post. It is, therefore, requested that Government may please be moved to accord sanction to the opeining of the new Sub-Division with effect from 1st April, 1950 as already requested in this office letter No.B.M.16, dated the 21st February, 1950, in view of the reasons explained in this office letter No.B.M.16, dated the 24th Feb. 1949.
